EXPERIENCE

MIT (massachusetts institute of technology)

Design Researcher | Interaction Designer (2020 - Ongoing)

Identifying through research the most important aspects of financial-wellbeing and use these outcomes to create a tool for banks for spotting opportunity areas and new services models.

INNOVATION BY DESIGN

Service Design | Design Researcher (2020-Ongoing)

I have been working on multiple user experience research and design activities, including secondary and primary research, developing user journeys, personas and supporting in workshop and co-creation activities. These activities have been used to design new (digital) services in fields such as healthcare, e-commerce, and finance.

INNOVATION BY DESIGN (INTERNSHIP)

Service Design | Strategic Design (2018-2019)

During my internship, I have been involved in projects related to different fields. In most of the projects, I worked on the strategic parts (e.g. trend scouting, envisioning) and the service parts (e.g. definition of the stakeholders, users journeys).

GAYMINOUT

UX Designer (2021-Ongoing)

I have been collaborating with Gayminout to redesign their website, and to design the website in collaboration with ActionAid. I have been in charge of both the research phase (including co-creation workshop and banchbark activities), and the design process.

EDUCATION

TECHNISCHE UNIVERSITEIT DELFT

MSc Design for Interactions (2017-2020)

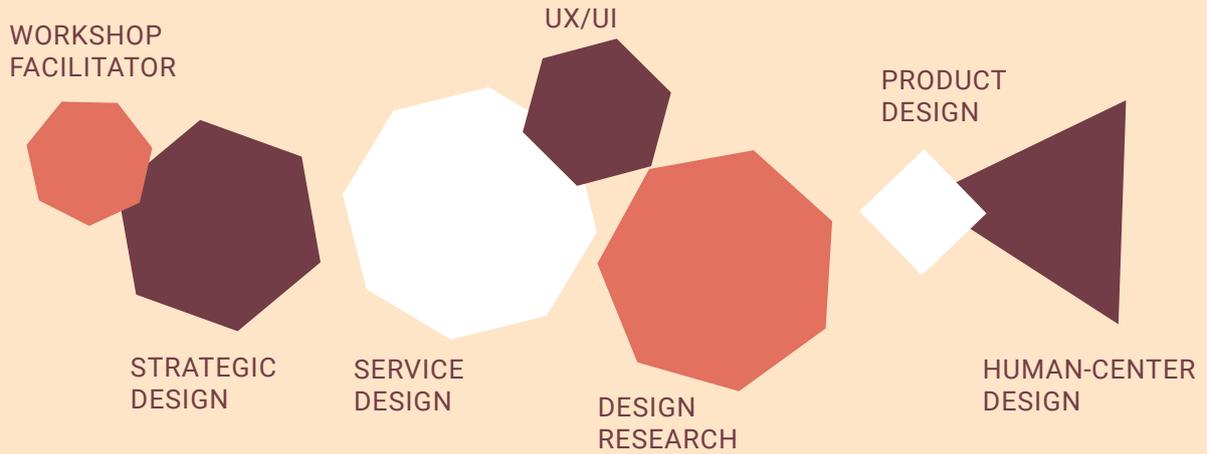

During the Design for Interaction Master, I have learned to structure in-depth research and to realize detailed solutions based on the different outcomes. The master focuses on providing human-center knowledge, thus the basis for becoming interaction | Service | UX | Strategic designers.

POLITECNICO DI MILANO

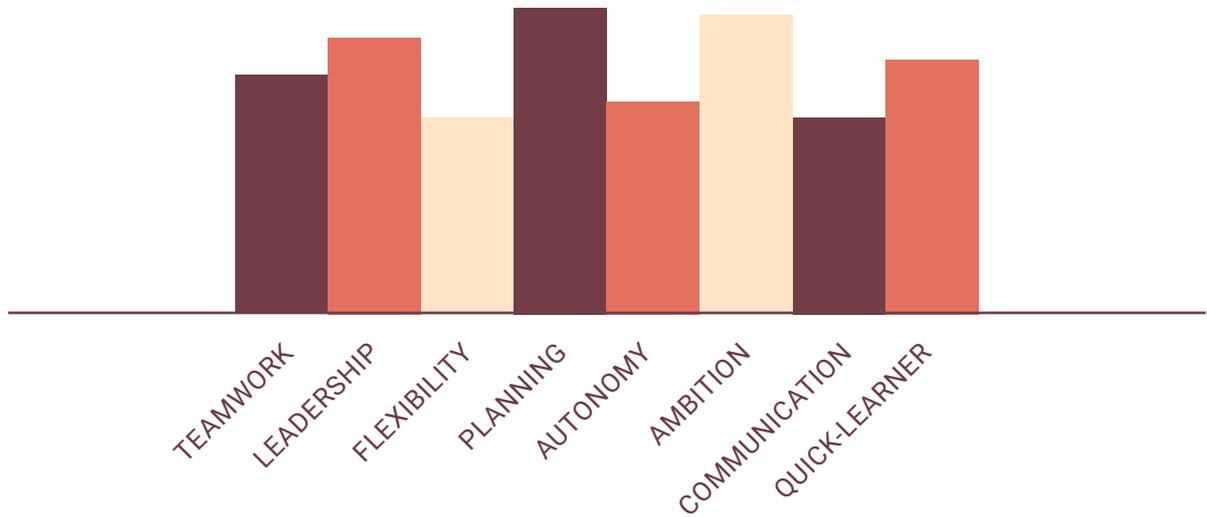

BSA Industrial Design (2013 - 2016)

During my Bachelor in Product Design, I have understood the essentials of the design field. I have learned the crucial aspects of a standard design process, and which are the essential aspects of the context to keep in mind while designing a solution.
